Summary

I hold a Bachelor's degree in Computer Information Systems with a minor in Information Security. I have two years of experience in technical support at Jawwal/Paltel, and I completed a Networks Department internship at Al-Quds Open University – ICTC. I have completed CCNA and Google IT Support courses and earned certificates of completion. I am currently pursuing the DevOps path, building on my technical background through continuous learning and hands-on projects.

WORK EXPERIENCE

Technical Support Specialist | Customer Service

Jawwal / Paltel - Palestine Telecommunications Company | 11/2023 - 11/2025 | Nablus, West Bank (Hybrid)

- Resolved internet issues for XDSL (copper), fiber-optic, and FWA (Fixed Wireless Access) connections.
- Diagnosed and resolved slow speeds, disconnections, and service instability.
- Configured routers, access points, Wi-Fi extenders, and customer network devices to improve wireless coverage.
- Advised customers on Wi-Fi optimization, router placement, and home network performance.
- Troubleshooted IPTV-related issues and supported service restoration.
- Identified and reported network outages, technical faults, and recurring service problems.
- Carried out additional tasks to support team operations and enhance service delivery.

Internship - Networks Department

Al-Quds Open University - ICTC | 05/2023 - 08/2023 | Ramallah, Palestine (On-site)

- Performed web and network vulnerability scanning.
- Generated and deployed SSL certificates.
- Worked with VMware vSphere and VMware vCenter environments.
- Practiced network fundamentals, cabling, and network switches.
- Supported Active Directory Domain Services tasks.

EDUCATION

B.Sc. in Computer Information Systems (CIS) | Minor in Information Security

Al-Quds Open University | 09/2018 - 09/2022 | GPA: 80.24% - Very Good

Google | Aug 2026

PROJECTS

- Nova1st – Interactive Games & Streaming Tools Platform | (Beta)

Developed and launched a web-based platform that includes multiplayer games, guessing games, interactive tools, and entertainment features. The platform is designed to help streamers on platforms such as Twitch and Kick engage with their audience through interactive activities, games, and real-time participation.

Website: Nova1st.com

- EmuPath – Technical Learning Platform | (In Progress)

Developing a web-based platform that helps programmers and IT support learners practice technical skills through interactive simulations, troubleshooting scenarios, and practical tools. The platform provides resources and tools for IT professionals, DevOps learners, and developers.
